

**CONTENTS** CONTINUED

<b>Mesenteric artery disease in the elderly</b>	45
Kimberley J. Hansen, MD, David B. Wilson, MD, Timothy E. Craven, MSPH, Jeffrey D. Pearce, MD, William P. English, MD, Matthew S. Edwards, MD, Juan Ayerdi, MD, and Gregory L. Burke, MD, MS, <i>Winston-Salem, NC</i>	
<b>Surgical management of renal artery aneurysms</b>	53
William P. English, MD, Jeffrey D. Pearce, MD, Timothy E. Craven, MSPH, David B. Wilson, MD, Matthew S. Edwards, MD, Juan Ayerdi, MD, Randolph L. Geary, MD, Richard H. Dean, MD, and Kimberley J. Hansen, MD, <i>Winston-Salem, NC</i>	
<b>Blunt popliteal artery injury with complete lower limb ischemia: Is routine use of temporary intraluminal arterial shunt justified?</b>	61
Ahmed Hossny, FRCS (Ed), <i>Menofia, Egypt</i>	
<b>Remote superficial femoral artery endarterectomy and distal aSpire stenting: Multicenter medium-term results</b>	67
David Rosenthal, MD, John D. Martin, MD, Peter J. Schubart, MD, Eric D. Wellons, MD, Frederick W. Shuler, MD, and Adam B. Levitt, MD, <i>Atlanta, Ga; Annapolis, Md; and San Jose, Calif</i>	
<b>Natural history of physical function in older men with intermittent claudication</b>	73
Andrew W. Gardner, PhD, Polly S. Montgomery, MS, and Lois A. Killewich, MD, PhD, <i>Norman Okla; Galveston, Tex; and Baltimore, Md</i>	
<b>Clinical review of patients treated for atypical claudication: A 28-year experience</b>	79
William D. Turnipseed, MD, <i>Madison, Wis</i>	
<b>Patient risk perceptions for carotid endarterectomy: Which patients are strongly averse to surgery?</b>	86
Hayden B. Bosworth, PhD, Karen M. Stechuchak, MS, Steven C. Grambow, PhD, and Eugene Z. Oddone, MD, <i>Durham, NC</i>	
<b>Carotid angioplasty with internal carotid artery flow reversal is well tolerated in the awake patient</b>	92
Enrique Criado, MD, Manuel Doblas, MD, Juan Fontcuberta, MD, Antonio Orgaz, MD, Angel Flores, MD, Paloma Lopez, MD, and L. Philipp Wall, MD, <i>Stony Brook, NY; and Toledo, Spain</i>	
<b>Silicone patch saphenoplasty to prevent repeat recurrence after surgery to treat recurrent saphenofemoral incompetence: Long-term follow-up study</b>	98
Marianne G. De Maeseneer, MD, Chantal P. Vandenbroeck, MD, and Paul E. Van Schil, MD, <i>Antwerp, Belgium</i>	

**BASIC RESEARCH STUDIES**

<b>Transduction of peptide analogs of the small heat shock-related protein HSP20 inhibits intimal hyperplasia</b>	106
Deron J. Tessier, MD, Padmini Komalavilas, PhD, Bo Liu, PhD, Craig K. Kent, MD, Jeffrey S. Thresher, MS, Catherine M. Dreiza, BS, Alyssa Panitch, PhD, Lokesh Joshi, PhD, Elizabeth Furnish, PhD, William Stone, MD, Richard Fowl, MD, and Colleen M. Brophy, MD, <i>Scottsdale, Tempe, and Phoenix, Ariz; and New York, NY</i>
